February 24, 2011

Earlier this month, the PM-ISE kicked off the development of the 2011 Annual Report to The Congress on the progress of the Information Sharing Environment. This is the fifth Annual Report that the Program Manager will deliver to the Congress.

The 2011 report will build on mission partner information sharing accomplishments and provide metrics on important projects like Assured Sensitive but Unclassified Network Interoperability [3], the Nationwide Suspicious Activity Reporting Initiative [4], and State and Major Urban Area Fusion Centers [5].

As with last year?s report, we are committed to highlighting the information sharing and access success stories of our mission partners across the federal, state, local, tribal and territorial governments, the private sector and foreign allies. ?The agencies, the mission partners and the frontline are the real engines that drive information sharing,? said Kshemendra Paul, Program Manager, Information Sharing Environment. ?They are the ones protecting us each day, and theirs are the stories that need to be heard. We are only successful if **they** are successful.?

The Annual Report is required by law to provide the Congress ?a progress report on the extent to which the ISE has been implemented.?

To access last year?s annual report, view success stories from past annual reports, or to submit your stories, visit the links below.
